Recovery at RT (after 1M at 45°C): 24,200 mPa.s Brookfield LV4-6.

STABILITY: 1M at RT, presence of marbling of different colors on the walls 45 °C.

FORMULATION ADVICES: Pilot - 5 kg - Trimix, Rotor stator

Mix the four pigments with aqua, start the stirrers with the Rotor Stator (3000 rpm) for 5 minutes. Create phase B by dispersing SEPINOV™ EMT 10 in EMOGREEN™ C69 and DUB MCT 5545*. Add it to phase A with stirring and make vacuum. After 10 min, break vacuum, and introduce phase C with stirring during 5 min. Stop the Rotor Stator and continue the other stirrers. Break the vacuum and empty the tank.

This minimalist tinted formula contains a high quantity of hydrophilic pigments & is stabilized by a few ingredients only.

This foundation, highly concentrated in hydrophilic pigments, brings a maximal coverage!

At only 0.5%, **SEPINOV™ EMT 10** thickens & stabilizes this cream-gel containing 15% of hydrophilic pigments! This polymer also brings a fresh & satin touch lightening the texture.

(Hydroxyethyl Acrylate / Sodium Acryloyldimethyl Taurate Copolymer)

EMOGREEN™ C69 eases the application & provides a comfortable glide-on during application, as well as a powdery after-feel particularly appreciated in foundation. (C15-19 Alkane* - Coco-Caprylate/Caprates)

(*Plant-based & Renewable)

Bio-based, crystal clear, extra-fluid and readily biodegradable emollient. Imagine a light and soft touch emulsion: after a medium playtime, wrapping your skin in a soft, comfortable & powdery veil.

AQUAXYL™ hydrates & restructures skin by boosting water reserves.

(Xylitylglucoside - Anhydroxylitol - Xylitol)

Harmonizes the hydric flow of the skin: **water reserves are instantly boosted**, **water circulation is improved** in all skin layers & **water loss is reduced** (in vitro & in vivo tests prove this efficacy). Its mechanism of action has been **validated by cosmetogenomics**.

ADDITIONAL INGREDIENTS: Phenoxyethanol - Ethylhexyl Glycerin: EUXLY PE9010 (SCHÜLKE & MAYR) / Phenylpropanol - Propanediol - Caprylyl Glycol - Tocopherol: SENSIVA PA40 (SCHÜLKE & MAYR).
