Thanks to **EMOGREEN™ HP 40** film-forming effect, the hair fiber is protected against heat damage and the inner keratin structure is preserved. (C15-19 Alkane and Hydrogenated Polyfarnesene (Plant-based & Renewable)) This non polar and inherently biodegradable, **bio-sourced emollient** is a sustainable **alternative to heavy silicones** in formulation. This high purity versatile texturing ingredient **brings comfort to the hair** and the skin, with a soft and supple afterfeel.

**FLUIDIFEEL™ EASY** creates a fluid, sprayable and light emulsion. The duo **SEPIMAX ZEN™ & SOLAGUM™ TARA** effectively stabilizes the formula.

**FLUIDIFEEL™ EASY** (Lauryl Glucoside and Myristyl Glucoside and Polyglyceryl-6 Laurate):

**Glycolipidic O/W sustainable emulsifier**, from 100% vegetable origin and MB certified. Processable at room temperature for time and energy savings, it efficiently stabilizes low and very low viscosity formulations and gives **light textures**, for a nude skin sensation, comfortable and soft.

**SEPIMAX ZEN™** (Polyacrylate Crosspolymer-6): Pre-neutralized powder polymeric thickener with a maximum resistance to electrolytes thanks to its high associative behavior. It imparts rich, velvet and elegant skin feel.

**SOLAGUM™ TARA** (Caesalpinia Spinosa Gum): A powerful thickening natural gum from Caesalpinia spinosa endosperm seeds. Synergistic efficiency with synthetic and natural polymers.

**Organic Virgin Argan Oil\*\*** provides elasticity and shine (Argania Spinosa Oil)

The argan oil is rich in tocopherols (Vitamin E), antioxidants and essential fatty acids to protect and restore hair shine.

**Beautiful and smooth hair thanks to XYLISHINE™ & ALARIANE™:**

**XYLISHINE™** (Xylitylglycoside and Anhydroxylitol and Maltitol and Xylitol and Pelvetia Canaliculata Extract): the **natural sugars of vegetal and marine origin** makes the hair glossy and soft. It helps maintain the **deep hydration of the hair**.
