Efficient on a wide range of **pH from 3 to 8**, it is able to **formulate transparent aqueous gels**. It also provides **oil stabilizing effect** and **particle suspension properties**. It imparts a rich, velvet and elegant skin feel.

A duo of excipients that bring some gliding when the cream is applied:

MONTANOV™ 202 (Arachidyl Alcohol and Behenyl Alcohol and Arachidyl Glucoside) is a glucolipid emulsifier of plant origin made in France. **Liquid crystal promoter**, it allows to create very stable biomimetic textures, providing **long-lasting hydration** and an **immediate restructuring effect** for a smoother skin texture. COSMOS AX

SOLAGUM™ AX (Acacia Senegal Gum and Xanthan Gum) is a smart combination of natural thickening polymers. It also **displays emulsifying properties** that allow to stabilize up to 15% of oils. Cosmos and Natrue approved, it is the **perfect ally for all natural formulation**. Readily biodegradable : >90% in 28 days**

EMOGREEN™ HP40 gives unctuousity, powdery finish and let a film at the surface of the skin. (C15-19 Alkane and Hydrogenated Polyfarnesene (Plant-based & Renewable) a non polar and inherently biodegradable, bio-sourced emollient. It's a **sustainable alternative to heavy silicones** in formulation. This high purity versatile texturing ingredient **brings comfort to the hair and the skin**. Multifaceted ingredient, it provides **film forming properties** with a **soft and supple afterfeel**.

A duo of actives

CERAMOSIDES™HP (Glycosphingolipids & Glycolipids): **The essence of perfect skin.** CERAMOSIDES™ HP are an original combination (patented) of natural CERAMIDES and OMEGAS which **protect the skin from the loss of elasticity**, one of the primary causes of enlarged pores with age.
