With WESOURCE

Green light emulsion / Packaging: Pump

pH: 5.4 / **VISCOSITIES: 1M at RT:** 38,210 cps Brookfield LV64 @6rpm /
Recovery at RT (after 1M at 45°C): 37,890 cps Brookfield LV64 @6rpm.
STABILITY: 1M at RT, 45°C, 3 F/T cycles -5°C/+40°C.

FORMULATION ADVICES: Laboratory scale - 300 g - defloculator
Combine A ingredients and B ingredients separately and mix well. Then add Phase A to phase B under the defloculator and increase speed to 1500 rpm to obtain a uniform cream gel and then add phase C and D and mix until uniform.

COLD
PROCESS

Cool down your skin after a sunny day out and limit the sun damages!

*This lotion breaks into water upon application,
like waves break on the beach!*

A white cream gel with **SEPI NOV™ EMT 10** with a quick-break effect

(Hydroxyethyl Acrylate/Sodium Acryloyldimethyl Taurate Copolymer)

A **pre-neutralized powder polymeric thickener**, working on a wide pH range (3-12). It also provides excellent **oil stabilizing property** even in presence of a high percentage of oily phase. It imparts satiny and fresh skin feel.

DUB OE HP MB*: a natural ester ideal for D5 replacement (Ethyl Oleate)

Comparable to cyclopentasiloxane but with a better playtime, it impairs **very good spreadability, ultra light skin feel & soft finish**. It helps reducing oily feel and is highly compatible with others oils, ethanol....

A soft and dry after skin feel with **EMO GREEN™ L15!** (C15-19 Alkane (Plant-based & Renewable))

This **non polar & biodegradable, bio-sourced emollient** is an alternative to silicones oils. Beyond the lightweight and non-greasy skin feel, it gives a powdery finish.

A great boost of hydration with **DUB DIOL*!** (Methylpropanediol)

This **multifunctional glycol** provides moisturization, maintains high level of hydration while being **less tacky than glycerin**.

Limit sun damages on the skin with **ANTILEUKINE 6™ & EPHEMER™**:

ANTILEUKINE 6™ soothes and protects after UV exposure! (Caprylic/Capric Triglyceride and Laminaria Ochroleuca Extract);

Regulates the inflammation mediators for an **immediate in vivo soothing effect** and long term anti-aging and moisturizing benefits.

EPHEMER™ (Caprylic/Capric Triglyceride and Undaria Pinnatifida Extract): **An immediate and long lasting antioxidant effect** from seaweeds gametophytes.

ADDITIONAL INGREDIENTS: Phenoxyethanol (and) Ethylhexylglycerin: EUXYL® PE9010 (SCHULKE) / Fragrance "Tart Green Apple PXD60113PX" (GIVALDAN)
