US20174 | Shimmer Glow and Go Highlighter

A soft pearlescent anhydrous stick

Wax

Skin radiance

Soft and matte effect

Complexion perfector

NATURALITY PROFILE according to ISO 16128 norm

A	EMOGREEN™ L19	5.00%
	DUB OE HP*	5.50%
	Organic Refined Mango Butter**	18.00%
	Microcrystalline Wax	18.00%
	DUB CIRE H1*	10.00%
B	PHYTOWAX® OLIVE 10L40**	14.50%
	PHYTOWAX® OLIVE 18L57**	15.00%
	TIMECODE™	1.00%
C	PHYCOCORAIL™	1.00%
	NATIVE ESSENCE™	1.00%
	Aruban Coral Pearlescent pigment	5.00%
	Perpetual Summer Glitter Pigments	5.00%
	Fragrance "Divine Rose"	1.00%

Bronze Color Solid Stick / Packaging: Stick

pH: N/A / VISCOSITIES: N/A

Recovery at RT (after 1M at 45°C): Okay

STABILITY: Passed 3M at 45°C, RT, & 3 F/T cycles -5°C/+40°C.

FORMULATION ADVICES: Laboratory scale - 300 g - Sweeper/propeller

Combine and heat Phase A to 75°C. Once all ingredients are melted, cool down the batch to 55°C while mixing and add Phase B ingredients. At 50°C, add Phase C and pour at 50°C.

A shimmery stick to highlight, contour and illuminate the skin!

Bring immediate and long term natural radiance!

Texturizing agents are used to get a solid stick, stable at higher temperature but melting on the skin for a good payoff

PHYTOWAX® OLIVE** are great alternatives to synthetic waxes sourced from olive, increasing the consistency and creaminess of the formula.

PHYTOWAX® OLIVE 18L57** has a melting point around 57°C for texture and thickness but very soft during application. MP: 52-60°C (Hydrogenated Olive Oil Stearyl Esters)

PHYTOWAX® OLIVE 10L40** has a lower melting point, close to the temperature of the skin, for high emolliency. MP: 35-42°C (Hydrogenated Olive Oil Decyl Esters)

DUB CIRE H1* is a unique texturizer with melting point close to skin temperature, for a smooth liquifying texture to application and long-lasting residual film. MP 37-41°C. (C10-18 Triglycerides)

Organic Refined Mango Butter* is a dense butter providing texture and consistency. MP: 27C - 35°C. (Mangifera Indica (Mango) Seed Butter)

A combination of natural emollients with a soft feel, high spreadability and moisturization benefits, increasing payoff on the skin:

EMOGREEN™ L19 is a non polar emollient providing easy spread, non sticky touch, dry after skin feel. (C15-19 Alkane (Plant-based & Renewable))

DUB OE HP* is an alternative to cyclopentasiloxane, with a very high spreading value. Helps to reduce the oily feel and provides skin hydration. (Ethyl Oleate)

PHYCOCORAIL™ is a powdery active ingredient from a calcified red algae, with high porosity for a soft and matte skin. It protects skin cells and DNA against sun rays (Lithothamnium Calcareum Extract & Mannitol & Diatomaceous Earth & Zinc Sulfate)

With two powerful Seppic actives **TIMECODE™** and **NATIVE ESSENCE™**, the skin is illuminated and aging signs are reduced

TIMECODE™ -the bliss molecule- illuminates, corrects and firms the skin (Palmitoyl Glycine): Clinically proven to rejuvenate the complexion and reduce redness.

NATIVE ESSENCE™ is a detoxifying active extracted from a halophyte plant, Sea Fennel, which restores hydrolipidic barrier (ceramides 3 & 6) and provides radiance to the skin. (Caprylic/Capric Triglyceride and Crithmum Maritimum Extract)

ADDITIONAL INGREDIENTS: Microcrystalline Wax; Microcrystalline Wax 165/175; (Koster Keunen)/ Mica (and) Titanium Dioxide (and) CI 77491; RTZ Aruban Coral (KOBO PRODUCTS) / Synthetic Fluorphlogopite (And) Silica (And) Titanium Dioxide (And) Iron Oxides (CI 77491); K-RAY™ SM PERPETUAL SUMMER GLITTER(KOBO PRODUCTS) / Divine Rose fragrance; SZUS035553 (Sozia)
